

# Saving Money

Saving money is when you keep some of your money instead of spending it all. It's like keeping your favorite toys or treats for later instead of using them right away. When you save money, you put it in a special place called a piggy bank or a savings account at the bank. Saving money is important because it helps you have money for things you want in the future, like buying a new toy or going on a fun trip.

- 1** Draw a picture of a bank that you could save your money in.
- 2** Draw a picture of two things you would like to save your money for.
- 3** Draw a picture of who would be helped by donating money to a charity.
