

Pinwheel Pattern

1. Color the 4 quadrants of the pinwheel pattern.
2. Cut out around the large square.
3. Cut along each of the 4 diagonal lines ONLY until you reach the dotted line.
4. Fold / turn each corner into the center, when all corners are turned in, you should only see 1 circle in the center as the other 3 will overlap.
5. Using a push pin and a piece of Jinx wood to finish the pinwheel.
