

Name: _____

Let's Make Crystals Inquiry

Making Crystal to Observe Them

What You Need:

- A beaker or container
- A measuring cup
- 1/2 cup of really hot water
- 1/2 cup of Epsom salts
- *Optional:* food coloring

1. Predict what you think will happen with this mixture over time.
2. Mix the hot water and the Epsom salts. (*add a few drops of food coloring*)
3. Put the mixture into the refrigerator.
4. Check on the mixture every few hours.
5. (Pour off remaining mixture once you have results)

Provide 3 statements about what you learned from doing this inquiry.
