

Name: _____

Wind Vane Option 2

Build a wind vane to help you find out the direction the wind is blowing. What would happen with the wind vane on a light breezy day? What would happen with the wind vane on a strong windy day?

What is Needed To Build a Wind Vane (*also called weathervane*)

1. Pencil with eraser on the top.
2. Tack or pin.
3. Plastic straw (cut into the straw a bit to hold the paper cut outs).
4. Card stock for arrow and base.
5. Can with clay at the bottom to hold pencil and the wind direction template on the top. (*See Template*)
